INFORMATION SHEET

KNOWN EGG DONOR ARRANGEMENTS

STEP 1: See Fertility Specialist

Complete required blood tests (including karyotype and genetic carrier screening) for egg donor and sperm provider, and ultrasond scans for egg provider

NOTE: results can take up to 6 weeks to return, please complete ASAP to prevent delays at Step 4

STEP 2: Register with Newlife IVF, get medical clearance, and book 1st counselling (individual) for both parties

Donor to complete Genetic and Health Questionnaire – sent to Genetic Counselllor

Genetic Counsellor to contact Donor and/or Recipient to discuss questionnaire (if required)

Donor Coordinator provides recipients with a copy of questionnaire

STEP 3: Complete 1st Counselling

If the arrangement does not proceed (or due to medical/genetic reasons the donor is not deemed suitable) recipients will be charged a fee for counselling. You have the option to not proceed to Step 3 if you wish to wait for final medical clearance first

STEP 4: Confirm all required test results (bloods, ultrasound scans, genetics) have been received and donor is deemed suitable by Fertility Specialist

Book follow-up consultation with Fertility Specialist (treatment plan needed)

STEP 5: Complete Group/Individual Counselling and Nursing sessions (and finance call)

Both parties return Consent Forms

READY TO START TREATMENT
